FY 2005 – Analysis and Description of Activities Funded through Section 251

Statewide Voter Registration System

The Wisconsin State Elections Board is continuing to make progress on the implementation of its Statewide Voter Registration System (SVRS). The database and application are currently in operation in some Wisconsin municipalities. Unlike most states where elections and voter registration are managed by counties, Wisconsin has the additional challenge of implementing at the municipal level. Before January 1, 2006, only 309 out of 1,851 municipalities had an existing voter registration system. Now 1,512 municipalities are required to register voters for the first time

To address this challenge, the SVRS project is deploying the application across the state iteratively through twelve distinct regions. These regions, as seen on the accompanying materials, encompass multiple counties, municipalities, and voting age populations. The Statewide Voter Registration System is currently in operation in approximately 1/3 of Wisconsin's municipalities.

The deployment of the application includes the following activities:

- 309 Wisconsin municipalities had legacy systems from which data needed to be converted. Data from 96 of these municipalities has been converted.
- 1,542 Wisconsin municipalities had only manual voter registration records to convert. Records from 497 municipalities have been populated in SVRS.
- o Approximately 2,500 elections staff have attended a training course.
- o 593 municipalities are currently live with SVRS.

The Wisconsin State Elections Board is now focusing on assisting live Regions with the April election cycle. Following the April 4 statewide election, the State will begin deployment of the application to the remaining municipalities, with the goal of full implementation prior to the fall election cycle.

The State Elections Board is currently implementing data verification procedures associated with cross-referencing identification with the Wisconsin Department of Transportation and the Social Security Administration. Interface programs are currently undergoing testing and are anticipated to be operational in April 2006. The State Election Board has entered into all necessary data exchange agreements with the Wisconsin Department of Transportation and the Social Security Administration. The State Election Board has also entered into all necessary data exchange agreements with the Wisconsin Department of Corrections and the Wisconsin Department of Health and Family Services.

The primary impediment to having a fully operational SVRS is the failure of the vendor to provide an acceptable application in a timely manner. The State Elections Board staff has diligently tested the versions of the application submitted by the vendor and

ORIGINAL.

provide detailed direction on how the application needs to be improvised. The State Elections Board and local election officials are frustrated by the delay implementation of SVRS. However, we are determined to have a viable application in use for the fall 2006 election cycle.

ORIGINAL.

Accessible Voting Equipment

At this time, no Section 251 funds have been expended through the end of 2005 toward the acquisition of accessible voting equipment. The Wisconsin State Elections Board has approved three voting systems (AccuPoll, the AutoMARK with ES&S products and Vote-PAD) for use as accessible voting equipment. Three additional vendors (Diebold, Sequoia and Populex) are also in the approval process. These vendors are expected to be reviewed by the Board in March and April, 2006.

The State Elections Board has also distributed information to all municipal and county clerks describing the approved vendors, the process for acquiring approved voting equipment and the process for receiving reimbursement with HAVA funding for the accessible component for their voting system. Twenty-six of Wisconsin's seventy-two counties have expressed an interest in purchasing either the AutoMARK or Diebold equipment. Based upon discussion with municipal and county clerks, it is anticipated that most municipalities will have ordered an accessible component for their voting system by May 1, 2006, in order that these systems will be in place by the September 12, 2006 Partisan Primary. Elections Board staff will contact those municipalities that have not ordered voting systems by May 15, 2006 to determine what assistance can be provided or issues must be resolved.

We therefore expect that the majority of the HAVA Section 251 funds will be expended prior to September 12, 2006 as reimbursement to municipalities for the acquisition of replacement or accessible voting systems or components.

FINANCIAL STATUS REPORT

(Long Form)

Public reporting burden for this collection of information is estimated to average 30 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0039), Washington, DC 20503.

PLEASE <u>DO NOT</u> RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET.

Please type or print legibly. The following general instructions explain how to use the form itself. You may need additional information to complete certain items correctly, or to decide whether a specific item is applicable to this award. Usually, such information will be found in the Federal agency's grant regulations or in the terms and conditions of the award (e.g., how to calculate the Federal share, the permissible uses of program income, the value of in-kind contributions, etc.). You may also contact the Federal agency directly.

Item Entry Item Entry

- 1, 2 and 3. Self-explanatory.
- Enter the Employer Identification Number (EIN) assigned by the U.S. Internal Revenue Service.
- Space reserved for an account number or other identifying number assigned by the recipient.
- Check yes only if this is the last report for the period shown in item 8.
- 7. Self-explanatory.
- 8. Unless you have received other instructions from the awarding agency, enter the beginning and ending dates of the current funding period. If this is a multi-year program, the Federal agency might require cumulative reporting through consecutive funding periods. In that case, enter the beginning and ending dates of the grant period, and in the rest of these instructions, substitute the term "grant period" for "funding period."
- 9. Self-explanatory.
- 10. The purpose of columns, I, II, and III is to show the effect of this reporting period's transactions on cumulative financial status. The amounts entered in column I will normally be the same as those in column III of the previous report in the same funding period. If this is the first or only report of the funding period, leave columns I and II blank. If you need to adjust amounts entered on previous reports, footnote the column I entry on this report and attach an explanation.
- 10a. Enter total gross program outlays. Include disbursements of cash realized as program income if that income will also be shown on lines 10c or 10g. Do not include program income that will be shown on lines 10r or 10s.

For reports prepared on a cash basis, outlays are the sum of actual cash disbursements for direct costs for goods and services, the amount of indirect expense charged, the value of in-kind contributions applied, and the amount of cash advances and payments made to subrecipients. For reports prepared on an accrual basis, outlays are the sum of actual cash disbursements for direct charges for goods and services, the amount of indirect expense incurred, the value of in-kind contributions applied, and the net increase or decrease in the amounts owed by the recipient for goods and other property received, for services performed by employees, contractors, subgrantees and other payees, and other amounts becoming owed under programs for which no current services or performances are required, such as annuities, insurance claims, and other benefit payments.

- 10b. Enter any receipts related to outlays reported on the form that are being treated as a reduction of expenditure rather than income, and were not already netted out of the amount shown as outlays on line 10a.
- 10c. Enter the amount of program income that was used in accordance with the deduction alternative.
- Note: Program income used in accordance with other alternatives is entered on lines q, r, and s. Recipients reporting on a cash basis should enter the amount of cash income received; on an accrual basis, enter the program income earned. Program income may or may not have been included in an application budget and/or a budget on the award document. If actual income is from a different source or is significantly different in amount, attach an explanation or use the remarks section.
- 10d, e, f, g, h, i and j. Self-explanatory.
- Enter the total amount of unliquidated obligations, including unliquidated obligations to subgrantees and contractors.

Unliquidated obligations on a cash basis are obligations incurred, but not yet paid. On an accrual basis, they are obligations incurred, but for which an outlay has not yet been recorded.

Do not include any amounts on line 10k that have been included on lines 10a and 10j.

On the final report, line 10k must be zero.

- 101. Self-explanatory.
- 10m. On the final report, line 10m must also be zero.
- 10n, o, p, q, r, s and t. Self-explanatory.
- 11a. Self-explanatory.
- Enter the indirect cost rate in effect during the reporting period.
- Enter the amount of the base against which the rate was applied.
- 11d. Enter the total amount of indirect costs charged during the report period.
- 11e. Enter the Federal share of the amount in 11d.
- Note: If more than one rate was in effect during the period shown in item 8, attach a schedule showing the bases against which the different rates were applied, the respective rates, the calendar periods they were in effect, amounts of indirect expense charged to the project, and the Federal share of indirect expense charged to the project to the project to date.
